Who We Are

50 years of steel, one accountable partner

Indo East Corporation Private Limited was founded in 1975 by Mr. Rajkumar Kejriwal in Howrah, West Bengal. What began as a pig-iron trading firm is today one of Eastern India's most respected manufacturers and exporters of fabricated & hot-dip galvanized steel structures, serving India's telecom, power, railway and solar infrastructure for five decades.

We are fully vertically integrated: design, CNC fabrication, robotic welding and in-house hot-dip galvanizing under one roof - giving buyers a single accountable partner from raw steel to dispatched, export-packed product.

Trusted by Reliance Jio, Airtel, Vodafone, BSNL, Nokia, Ericsson, L&T, ABB, Siemens, Alstom, GE, Godrej and 39+ approved utilities and EPC contractors across India.

What We Manufacture

Steel infrastructure for every sector

Telecom Infrastructure

GBT & RTT towers, self-support and guy masts, circular poles, antenna mounts, foundation bolts. 1,000+ towers supplied for India's 4G rollout.

Power Infrastructure

Substation & transmission structures, distribution structures, solar module mounting structures (MMS), rail poles, earthing & hardware.

Railway Infrastructure

Steel channel sleepers - Railway Board approved, supplied to Indian Railways since 2001 with ± 0.5 mm tolerances.

Structural Solutions

Flyover girders (incl. Garden Reach Flyover, Kolkata), heavy industrial & GI fabricated structures, H-beam poles.

Manufacturing & Process

An 11-stage production and QA process at our Jangalpur, Howrah works

- 1 Raw material procurement
- 2 Raw material testing
- 3 CNC plasma & flame cutting
- 4 Bandsaw cutting
- 5 Punching & drilling
- 6 Robotic welding
- 7 Grinding & finishing
- 8 Prototype & pre-assembly
- 9 Hot-dip galvanizing
- 10 Quality inspection
- 11 Sorting, bundling & dispatch

- In-house hot-dip galvanizing: 7-metre zinc kettle, among the largest in Eastern India - coating per IS 2629 / ASTM A123, typical 85 micron.
- Robotic welding & CNC plasma cutting for consistent weld quality and millimetre-accurate hole patterns.
- In-house mechanical & chemical testing laboratory; third-party inspection support (BVQI, SGS and customer-nominated agencies).
- Triple ISO certified: ISO 9001:2015 (Quality) · ISO 14001:2015 (Environment) · ISO 45001:2018 (Safety).

Clients & Approvals

Fortune 500 companies, State Electricity Boards and India's largest EPCs

Telecom & Industry

- Reliance Jio · Bharti Airtel · Vodafone · BSNL · Bhutan Telecom
- Nokia · Ericsson · American Tower (ATC) · Indus Towers
- Siemens · ABB · GE · Alstom T&D · Godrej · Voltas · L&T

Utilities & Government

- WBSEDCL · WBSETCL · OPTCL · BSPTCL · DVVNL · PuVVNL
- NBPDCCL · SBPDCL and other State Electricity Boards
- Indian Railways (Railway Board approved, since 2001) · DoT (since 1987)

Featured projects

- 1,000+ telecom towers for India's 4G rollout (GBT, RTT, masts; 30-60 m; IS 4759 galvanized)
- 400+ substation structures for rural electrification - 97% first-pass TPI acceptance
- Garden Reach Flyover, Kolkata - large-span heavy girder fabrication
- Multi-MW solar parks - tracker-compatible MMS with +/- 1 mm CNC tolerance

Export Ready

IEC-registered exporter, 22 km from Kolkata Port

Indo East is building long-term relationships with buyers and EPC contractors across Africa, the Gulf and South & Southeast Asia. Our works sit 22 km from Kolkata Port, with direct shipping lanes to Mombasa, Dar es Salaam, Lagos, Jebel Ali, Dammam, Colombo and Chattogram.

- IEC-registered with complete export documentation support (CoO, packing lists, LC handling)
- Products comply with IS, ASTM, BS and IEC standards; TPI by BVQI / SGS on request
- Competitive FOB / CIF pricing - quote within 48 business hours
- Export-grade packing: bundled, tagged and container-optimised

East Africa

Kenya · Uganda · Tanzania

Gulf

UAE · Saudi Arabia · Oman

West Africa

Nigeria · Ghana

South Asia

Bangladesh · Sri Lanka · Nepal

Send drawings or specifications - receive a competitive FOB quote within 48 business hours

The Indo East Group

Four companies, one accountable partner

Indo East Corporation Pvt. Ltd.

Fabricated & hot-dip galvanized steel structures - telecom, power, railway, solar, structural. Est. 1975.

Anand Tube Industries

Turnkey site execution: civil works, tower foundations & erection, electrical & commissioning. Est. 1991.

Indo Supertech Pvt. Ltd.

Industrial warehousing & commercial leasing across Howrah and Greater Kolkata.

Baniara Engineers Pvt. Ltd.

Warehousing & commercial infrastructure supporting the group's manufacturing and logistics.

Works & Head Office

Jalan Industrial Complex, Gate No. 1, Right Lane No. 6, Jangalpur, NH-6, Howrah - 711411, West Bengal, India
