

Export Capability Brochure

Galvanized Steel Structures from India

Indo East Corporation Private Limited

IEC-Registered Exporter · Triple ISO Certified

22 km from Kolkata Port · FOB quote in 48 hours

www.indoeast.com/exports.html

Why Global Buyers Choose Indo East

A 50-year factory, not a trading house

01

50+ years of proven delivery

Manufacturing since 1975 - thousands of projects across telecom, power, railways and heavy infrastructure.

02

Fully vertically integrated

Design, CNC fabrication, robotic welding and in-house galvanizing under one roof - single accountable partner.

03

Triple ISO certified

ISO 9001:2015 · ISO 14001:2015 · ISO 45001:2018, plus an in-house mechanical & chemical lab.

04

Export-ready location

22 km from Kolkata Port with direct lanes to Africa, the Gulf and South & Southeast Asia.

05

39+ vendor approvals

Utilities, Indian Railways and EPCs incl. L&T, ABB, Alstom T&D - procurement-grade credentials.

06

18,000+ MT capacity

Scale for rollout programmes; 7 m galvanizing kettle handles long members in a single dip.

Product Range for International Markets

Manufactured to IS, ASTM, BS and IEC standards

- Telecom: Ground-Based Towers (GBT), Roof-Top Towers (RTT), self-support & guy masts, poles, antenna mounts, foundation bolts
- Power: substation & transmission structures, distribution structures, earthing & line hardware
- Solar: module mounting structures (MMS), tracker-compatible, CNC-cut to ± 1 mm
- Railway: steel channel sleepers (Railway Board approved) and track structures
- Structural: flyover girders, industrial & GI fabricated structures, H-beam poles

Standards & coating

- Fabrication: IS 2062 / equivalent ASTM & BS grades
- Galvanizing: IS 2629 / IS 4759 / ASTM A123 - typical 85 micron
- Design compatibility: IS, TIA, BS, IEC specifications
- Testing: in-house lab + BVQI / SGS third-party inspection

Logistics, Documentation & Inspection

From our gate to your port - handled

- IEC-registered exporter - fully compliant for international trade
- Complete export documentation: commercial invoice, packing list, Certificate of Origin, BL coordination, LC handling
- Third-party inspection welcomed: BVQI, SGS or your nominated agency, at works before dispatch
- Export-grade packing: bundled, tagged, container-optimised loading plans
- Competitive FOB / CIF pricing - transparent, itemised quotations

pre-dispatch inspection

Target Markets

Where we ship - and where we're growing

East Africa

Kenya, Uganda, Tanzania, Ethiopia - fast-growing telecom & power grid infrastructure.

Gulf (GCC)

UAE, Saudi Arabia, Oman - utility and telecom expansion, NEOM-era construction demand.

West Africa

Nigeria, Ghana - rising demand for galvanized towers and distribution structures.

South & Southeast Asia

Bangladesh, Sri Lanka, Nepal, Myanmar - grid extension and rail programmes.

Direct shipping lanes from Kolkata Port to Mombasa, Dar es Salaam, Lagos, Tema, Jebel Ali, Dammam, Colombo and Chattogram.

Start Your Enquiry

- 1 Send drawings, specs or BOQ to info@indoeast.com
- 2 Receive an itemised FOB quote within 48 business hours
- 3 Approve prototype & TPI plan
- 4 Production, inspection & container dispatch from Kolkata Port
